■ Wood Care Products

Sikkens ProLux finishes protect and bring out the natural beauty of all types of wood. One aspect common to wood species is that it needs protection from the elements. *Sikkens ProLux* wood finishes offer unrivaled looks, durability and performance for all wood types.

[INTERIOR](#) | [EXTERIOR](#) | [DECK](#) | [LOG](#)

Cetol SRD RE

Cetol SRD is a one coat translucent exterior finish specially formulated to provide a water-repellent finish for a wide range of areas around the home. *Cetol SRD RE* is an easy-to-use effective coating for most outdoor wood surfaces. The product features finely ground iron oxide pigments creating a rich, natural colour and offers a unique alkyd/oil protective layer against rain, snow and UV rays. *Available in 8 colours.*

[EXTERIOR](#) | [DECK](#) | [LOG](#)

Cetol 1 RE

Cetol 1 RE is a translucent exterior wood finish that protects wood from the elements with a durable surface barrier that repels water while allowing excess moisture to escape. It penetrates deep into the wood, sealing and protecting it. *Cetol 1 RE* remains firmly attached to the wood and provides a perfect surface to accept the next layer of protection, *Cetol 23 Plus RE*. *Available in 8 colours.*

[EXTERIOR](#) | [LOG](#)

Cetol 23 Plus RE

Cetol 23 Plus RE offers a greater degree of protection from the harmful effects of ultraviolet light. The secret is an unprecedented use of two UV-absorbing materials, widely dispersed and permanently fixed into the surface film. *Cetol 23 Plus RE* firmly retains its elasticity making it the ideal translucent topcoat for *Cetol 1 RE* exterior siding applications. *Available in 7 colours.*

[EXTERIOR](#) | [LOG](#)

Cetol Log & Siding

Cetol Log & Siding is a high performance, translucent, satin finish for vertical surfaces. This alkyd high solids formula offers protection and a premium look in just two coats. Available in 7 colours.

EXTERIOR | LOG

Cetol Maintenance RE

Cetol Maintenance RE is a non-pigmented exterior finish to be used over vertical surfaces (siding)—previously coated by *Sikkens ProLuxe*—as a maintenance coat. Typically with maintenance coats, pigmented products will further darken the wood. However, with a one-coat application of *Cetol Maintenance RE*, the wood will retain the same look and color.

EXTERIOR | LOG

Cetol Door & Window

Cetol Door & Window is a high performance coating for specialty applications such as doors and windows. This alkyd high solids formulation offers protection and a distinctive look for these unique areas. Available as a clear satin, clear gloss or 4 ready-mix colours in satin.

EXTERIOR

Cetol DEK Finish

Cetol DEK Finish is a high performance, translucent, satin finish for decks. This alkyd high solids formulation offers protection, ultimate durability and a beautiful furniture finish appearance, plus the simplicity of one product and just a two-coat application. Available in 4 colours.

DECK

Rubbol Solid Stain

Rubbol Solid is a premium solid colour stain. The acrylic/oil formulation features excellent penetration and adhesion over bare and previously coated surfaces, remarkable colour retention, easy application and soap and water clean up. The sheen will enhance even the most contemporary décor. Available in 53 colours.

EXTERIOR | DECK

Cetol BL Interior Clear

Cetol BL Interior Clear is a urethane-fortified acrylic formula that is non-yellowing, low-odour, scratch-resistant, and easy to clean. Available in a satin finish for most interior wood surfaces. Cetol BL Interior Clear offers protection, durability and easy application for both the do-it-yourselfer and the professional alike.

INTERIOR | LOG

Cetol UV Interior

Cetol UV Interior is a unique waterborne product designed to protect interior wood yet leave no colour or sheen on the surface. For use on light-coloured wood, the UV absorbers minimize yellowing and allow the wood to look natural. For use on bare wood only.
